Serving the Broadway/Slavic Village Community Since 1926

April 15, 2024

Dear University Settlement Community,

For nearly a century, University Settlement has been a pillar in the Slavic Village community, offering support to individuals and families through both joyful times and crises. As a non-profit, our operations depend significantly on federal, state, and grant funding, enabling us to serve nearly 2,000 adults and youth each month.

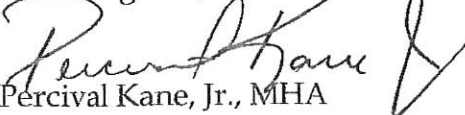

Recently, some of our funding sources have changed dramatically, affecting our cherished Adult Wellness program. For over 40 years, this program has provided essential physical and emotional wellness services to our seniors, becoming a cornerstone of our community. Regrettably, due to these financial challenges, we must discontinue the Adult Wellness program as of May 1, 2024, and the North Broadway Network Weaver position, as of June 30, 2024. However, our commitment to our community remains unwavering.

We encourage you to remain a part of our community by continuing to volunteer, participating in community activities such as community meals, our hunger center, produce distribution, and educational sessions, and reaching out to our community-based services team to help address your personal well-being and housing needs. Our team can help connect you with other resources to help during this transition.

Because we are deeply committed to our community and the work we do, you can expect us to communicate consistently and transparently as we continue to make adjustments, including exploring new funding opportunities and reallocating resources to ensure we remain a vibrant part of the beloved communities we serve.

We are deeply grateful for your continued partnership. We can only do this work with you; with you, there is US (University Settlement). Thank You for Being Part of US.

Warm regards,

Percival Kane, Jr., MHA
